## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 15-31, 33-40 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant has cited additional prior art for consideration. None of the references shows or suggests the stent or method for reducing in stent late loss in the range claimed by affixing a nonerodible polymeric coating with the claimed therapeutic in the quantities presented. Regarding the double patenting rejection in view of US 6,808,536, applicant's remarks have been carefully considered, and the claims of the '536 patent were again carefully examined. It is agreed that the recent version of the claims presented in this application do not raise an issue of double patenting with the '536 patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
